### Our Mission Statement

Founded by the sisters of Notre Dame, St Julie's Catholic High School is committed to being a Catholic learning community where opportunities allow all individual to discover their potential.

At St Julie's Catholic High School, we are committed to promoting a whole school approach to positive mental health and emotional wellbeing for all students, their families and members of staff and governors. Our open culture allows students' voices to be heard, and through the use of effective policies and procedures we ensure a safe and supportive environment for all affected - both directly and indirectly - by mental health issues.

This Mental Health policy reflect the vision of and values of St Julie's Catholic High School as set out in our Mission Statement, below.

### At St Julie's Catholic High School, we aim to be a Catholic learning community:

- which respects and embraces the diversity of all God's people
- where opportunities allow for all individuals to discover their potential and to develop and share their unique talents
- where friendship and enjoyment are experienced by all and a welcome is offered to those who visit
- which provides all with a safe and secure environment
- where faith, prayer and reflection are visible in word and in action
- which takes good care of God's world and all who inhabit it, especially the poor and disadvantaged
- where fairness, care and compassion are central to life.

## Scope

This policy is a guide to all staff – including non-teaching and governors – outlining St Julie’s High School’s whole school approach to promoting mental health and emotional wellbeing.

It has also been written in conjunction with several of our internal school policies, all of which can be found on the school website:

- a) Safeguarding and Child Protection Policy
- b) Behaviour for Learning Policy
- c) Equality Policy and Action Plan
- d) Disadvantaged Students Policy
- e) Accessibility Plan
- f) SENDCo Policy

## Policy Aims

- Promote positive mental health and emotional wellbeing in all staff and students.
- Increase understanding and awareness of common mental health issues.
- Enable staff to identify and respond to early warning signs of mental ill health in students.
- Enable staff to understand how and when to access support when working with young people with mental health issues.
- Provide the right support to students with mental health issues and know where to signpost them and their parents/carers for specific support.
- Develop resilience and self-regulation amongst students. Raising awareness of resilience building techniques.
- Raise awareness amongst staff and gain recognition from SLT that staff may have mental health issues, and that they are supported in relation to looking after their wellbeing.
- Instilling a culture of staff and student welfare where everyone is aware of signs and symptoms with effective signposting underpinned by behaviour and welfare around school.

## Key staff members

This policy aims to ensure all staff take responsibility to promote the mental health of students, however key members of staff have specific roles to play:

- Whole School Approach Strategic Mental Health Lead
- Designated Mental Health Lead/Team (Operational)
- Designated Safeguarding Lead
- SENDCo
- ROAR/MHFA trained staff
- PSHE Coordinator
- Pastoral Support Worker
- *External Education Mental Health Team (MHST, Wellbeing Clinic, CAHMS school link worker)*

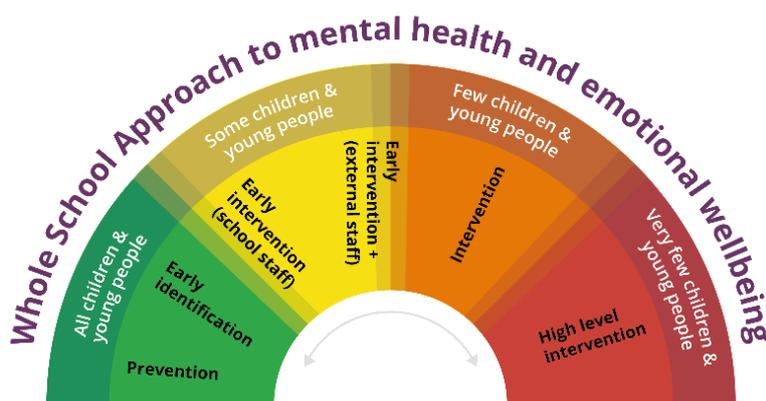

If a member of staff is concerned about the mental health or wellbeing of student, in the first instance they should speak to the Progress Lead or Mental Health Practitioner. Please refer to the school’s mental health pathway (*example attached*).

If there is a concern that the student is high risk or in danger of immediate harm, the school’s child protection procedures should be followed.

If the child presents a high-risk medical emergency, relevant procedures should be followed, including involving the emergency services if necessary.

## Levels of Need

Levels of need are used to help education providers and services to determine the type of support that might be needed for children/young people. There are 4 levels:

### Green = Prevention and early identification.

This level is for all children and young people and represents the basic level of mental health awareness and support strategies that all children and young people need for positive emotional wellbeing.

--------------------------------	------------------------------------	-----------------------------	--------------------------------------

**Yellow = Early Intervention.**

At this level of need children/young people will be showing early signs of distress that may be the start of an emerging mental health issue. Short-term interventions that build coping strategies are given to prevent these issues from developing – small changes to prevent bigger challenges.

**Orange = Intervention.**

At this level children and young people will need more specific support as their mental health problem will be more developed and significantly impacting their day-to-day life. There may also be other complexities such as trauma or neurodevelopmental conditions. Interventions are chosen to suit the needs of each child/young person and will vary in modality, and intensity.

**Red = High Level Intervention.**

At this level children and young people will need high-level support for mental health conditions that require support from Alder Hey Fresh CAMHS. Children may be at crisis point, require medication, or several different types of specialist support.

**Individual Care Plans**

When a pupil has received a diagnosis of a mental health issue, or is receiving support either through CAMHS or another organisation (orange/red level), it is recommended that an Individual Care Plan should be drawn up. The development of the plan should involve the pupil, parents, and relevant professionals.

Suggested elements of this plan include:

- Details of the pupil’s situation/condition/diagnosis
- Special requirements or strategies, and necessary precautions
- Medication and any side effects
- Who to contact in an emergency
- For pupils who self-harm or have had suicidal ideation it is helpful to draw up a safety plan with them. An example of this can be found within the Serious suicide awareness training.
- The role the school and specific staff

## **Mental Health Promotion**

Mental Health is everyone's business in our school, and we promote an environment that fosters inclusion, diversity and respect.

The skills, knowledge and understanding our students need to keep themselves - and others - physically and mentally healthy and safe are included as part of our PSHE curriculum and our peer mentoring programme.

We will follow the guidance issued by the PSHE Association to prepare us to teach about mental health and emotional health safely and sensitively.

<https://www.pshe-association.org.uk/curriculum-and-resources/resources/guidance-preparing-teach-about-mental-health-and-emotional-wellbeing> Incorporating this into our curriculum at all stages is a good opportunity to promote students' wellbeing through the development of healthy coping strategies and an understanding of students' own emotions as well as those of other people.

Additionally, we will use such lessons as a vehicle for providing students who do develop difficulties with strategies to keep themselves healthy and safe, as well as supporting students to support any of their friends who are facing challenges.

***See Supporting Peers***

## **Signposting**

We will ensure that staff, pupils and parents/carers are aware of the support and services available to them, and how they can access these services.

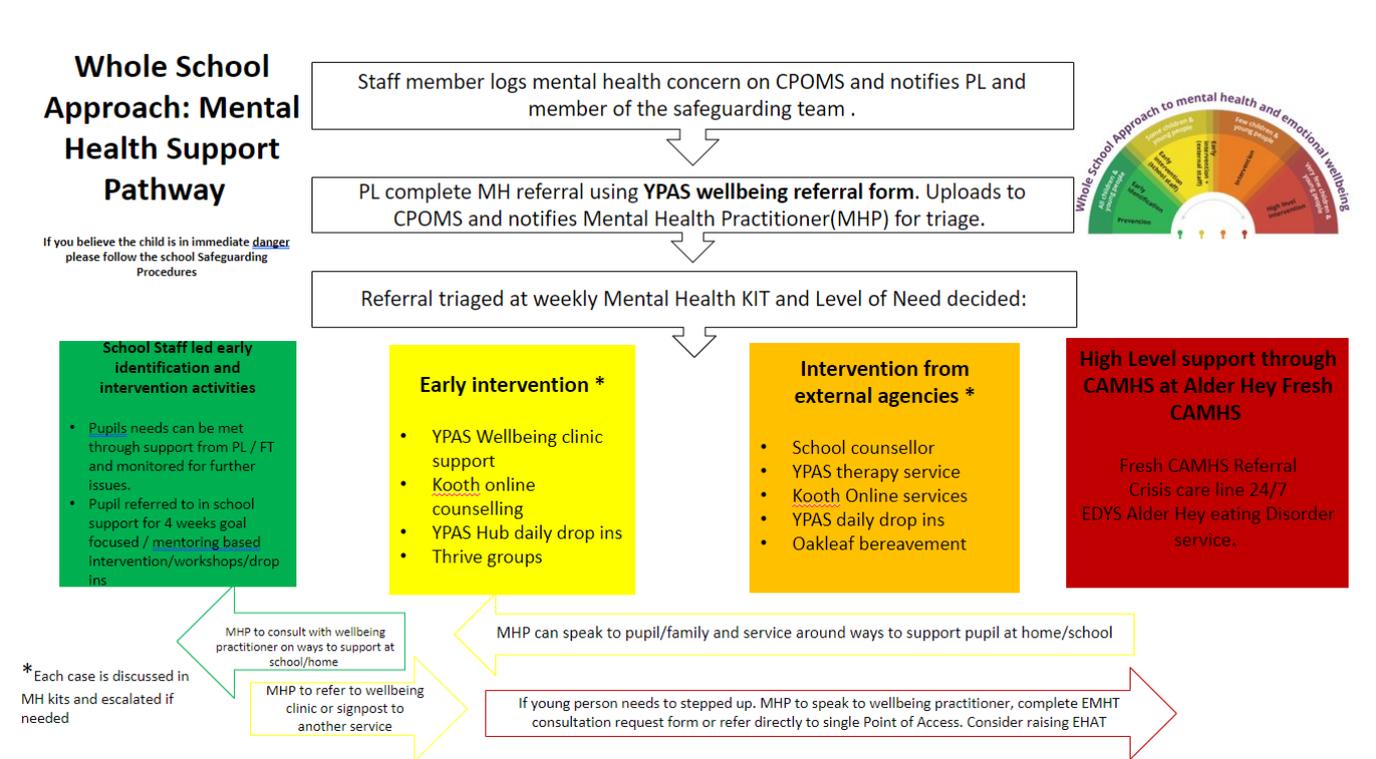

Within the school (noticeboards, common rooms, toilets etc.) and through our communication channels (newsletters, websites), we will share and display relevant information about local and national support services and events.

The aim of this is to ensure students understand:

- What help is available
- Who it is aimed at
- How to access it
- Why should they access it
- What is likely to happen

## Our School Mental Health Pathway

The school's mental health pathway maps the support available to children across all levels of need.

There are 4 levels of support.

### Level One – Universal Support

Pupils needs can be met through support from Progress leader/Form tutor and monitored for further issues.

### Level Two – Additional support

**Mental Health Practitioner support** – 1:1 or group sessions delivered by school support staff or the mental health practitioner. This level of support is suitable for low level support for anxiety, self-esteem, resilience. It aims to build on the pupil's knowledge and awareness of mental health and to strengthen the pupil's wellbeing. Pupils are referred through their progress leader or using the self-referral form which can be found on the school's website. The mental health practitioner will then be in touch to arrange appointments.

### Level Three – Intense support

**Young Persons Advisory Service (YPAS) Wellbeing clinic** – The Wellbeing Clinic is based in school once a week and is run by a YPAS practitioner. It offers support for a variety of difficulties, such as: worries and anxiety, low mood and depression, problems with sleep, feelings of panic, phobias, understanding emotions and

managing stress. Referrals to the Wellbeing Clinic are made via school and pupils are referred through progress leader or mental health practitioner.

#### **Level Four – Specialised support**

**CAMHS, YPAS CBT or alternative agency** – It maybe that pupils need more specialised support. Pupils are referred through progress leader or mental health practitioner.

If you would like any more information about the support available, please contact the Mental Health Practitioner. All referrals are reviewed and triaged by the mental health support team

#### **Local Support**

In Liverpool, there are a range of organisations and groups offering support, including the **CAMHS partnership Education Mental Health Teams**.

These teams deliver accessible support to children, young people and their families, whilst working with professionals to reduce the range of mental health issues through prevention, intervention, training and participation.

## **Recognising signs and symptoms of mental distress**

Staff may become aware of warning signs which indicate a student is experiencing mental health or emotional wellbeing issues. These warning signs should always be taken seriously and staff observing any of these warning signs should alert Dr Adams-White and a member of the safeguarding team

Possible warning signs, which all staff should be aware of include:

- Physical signs of harm that are repeated or appear non-accidental
- Changes in eating / sleeping habits
- Increased isolation from friends or family, becoming socially withdrawn
- Changes in activity and mood
- Lowering of academic achievement
- Talking or joking about self-harm or suicide
- Abusing drugs or alcohol
- Expressing feelings of failure, uselessness or loss of hope
  
- Changes in clothing – e.g. long sleeves in warm weather
- Secretive behaviour
- Skipping PE or getting changed secretly
- Lateness to, or absence from school
- Repeated physical pain or nausea with no evident cause
- An increase in lateness or absenteeism

## **Targeted support**

We recognise some children and young people are at greater risk of experiencing poorer mental health. For example, those who are in care, young carers, those who have had previous access to CAMHS, those living with parents/carers with a mental illness and those living in households experiencing domestic violence.

We work closely with school nurses and their teams in supporting the emotional and mental health needs of school-aged children and are equipped to work at community, family and individual levels. Their skills cover identifying issues early, determining potential risks and providing early intervention to prevent issues escalating.

We ensure timely and effective identification of students who would benefit from targeted support and ensure appropriate referral to support services by:

- Providing specific help for those children most at risk (or already showing signs) of social, emotional, and behavioural problems;
- Working closely with Liverpool City Council Children's Services, Liverpool CAMHS and other agencies services to follow various protocols including assessment and referral;
- Identifying and assessing in line with the Early Help Assessment Tool (EHAT), children

who are showing early signs of anxiety, emotional distress, or behavioural problems;

- Discussing options for tackling these problems with the child and their parents/carers. Agree an Individual Care Plan as the first stage of a 'stepped care' approach;
- Providing a range of interventions that have been proven to be effective, according to the child's needs;
- Ensure young people have access to pastoral care and support, as well as specialist services, including Liverpool CAMHS, so that emotional, social and behavioural problems can be dealt with as soon as they occur;
- Provide young people with clear and consistent information about the opportunities available for them to discuss personal issues and emotional concerns. Any support offered should take account of local community and education policies and protocols regarding confidentiality;
- Provide young people with opportunities to build relationships, particularly those who may find it difficult to seek support when they need it; and
- The identification, assessment, and support of young carers under the statutory duties outlined in the Children & Families Act 2014.

Our school is ACE aware and embraces trauma-informed practice.

## Managing disclosures

If a student chooses to disclose concerns about themselves, or a friend, to any member of staff, the response will be calm, supportive and non-judgemental.

All disclosures should be recorded confidentially on the student's personal CPOMS file, including:

- Date
- Name of member of staff to whom the disclosure was made
- Nature of the disclosure & main points from the conversation
- Agreed next steps

This information will be shared with the safeguarding team, progress leads and mental health practitioner.

If a Peer Mentoring Programme is in place, any disclosures made will also map with this process.

## Confidentiality

If a member of staff feels it is necessary to pass on concerns about a student to either someone within or outside of the school, then this will be first discussed with the student. We will tell them:

- Who we are going to tell
- What we are going to tell them
- Why we need to tell them
- When we're going to tell them

Ideally, consent should be gained from the student first, however, there may be instances when information must be shared, such as students up to the age of 16 who are in danger of harm. It is important to also safeguard staff emotional wellbeing. By sharing disclosures with a colleague this ensures one single member of staff isn't solely responsible for the student. This also ensures continuity of care should staff absence occur and provides opportunities for ideas and support.

Parents must always be informed, but students may choose to tell their parents themselves. If this is the case, a timescale of 24 hours is recommended to share this information before the school makes contact with the parents/carers. If a pupil gives us reason to believe that they are at risk, or there are child protection issues, parents should not be informed, but the child protection procedures should be followed.

## Parents/carers

### Working with parents/carers

If it is deemed appropriate to inform parents there are questions to consider first:

- Can we meet with the parents/carers face-to-face?
- Where should the meeting take place – some parents are uncomfortable in school premises so consider a neutral venue if appropriate.
- Who should be present – students, staff, parents etc.?
- What are the aims of the meeting and expected outcomes?

We are mindful that for a parent, hearing about their child's issues can be upsetting and distressing. They may therefore respond in various ways which we should be prepared for and allow time for the parent to reflect and come to terms with the situation.

Signposting parents to other sources of information and support can be helpful in these instances. At the end of the meeting, lines of communication should be kept open should the parents have further questions or concerns. Booking a follow-up meeting or phone call might be beneficial at this stage.

Ensure a record of the meeting and points discussed/agree are added to the pupil's record and an Individual Care Plan created if appropriate.

### Supporting parents

We recognise the family plays a key role in influencing children and young people's emotional health and wellbeing; we will work in partnership with parents and carers to promote emotional health and wellbeing by:

- Ensuring all parents are aware of and have access to promoting social and emotional wellbeing and preventing mental health problems;
- Highlighting sources of information and support about common mental health issues through our communication channels (website, newsletters etc.);
- Offering support to help parents or carers develop their parenting skills. This may involve providing information or offering small, group-based programmes run by community nurses (such as school nurses and health visitors) or other appropriately trained health or education practitioners; and
- Ensuring parents, carers and other family members living in disadvantaged circumstances are given the support they need to participate fully in activities to promote social and emotional wellbeing. This will include support to participate in any parenting sessions, by offering a range

Policy Owner	Creation Date	Approved by	Review Frequency	Page 14 of 16
J Adams-White	29.09.2023		Annual	

of times for the sessions or providing help with transport and childcare. We recognise this might involve liaison with family support agencies.

### Supporting Peers

When a student is suffering from mental health issues, it can be a difficult time for their friends who may want to support but do not know how. To keep peers safe, we will consider on a case by case basis which friends may need additional support. Support will be provided in one to one or group settings and will be guided by conversations by the student who is suffering and their parents with whom we will discuss:

- What it is helpful for friends to know and what they should not be told
- How friends can best support
- Things friends should avoid doing / saying which may inadvertently cause upset
- Warning signs that their friend needs help (e.g. signs of relapse)

Additionally, we will want to highlight with peers:

- Where and how to access support for themselves
- Safe sources of further information about their friend's condition
- Healthy ways of coping with the difficult emotions they may be feeling

### Training

As a minimum, all staff will receive regular training about recognising and responding to mental health issues as part of their regular child protection training to enable them to keep students safe. A nominated member of staff will receive ROAR training, Mental Health First Aid training or equivalent.

Our designated WSA strategic lead and mental health operational lead/team will attend the WSA termly network meetings.

We will host relevant information on our website for staff who wish to learn more about mental health. Regular training can be accessed through <https://www.liverpoolcamhs.com/training/>. The MindEd learning portal also provides free online training suitable for staff wishing to know more about a specific issue.

Training opportunities for staff who require more in-depth knowledge will be considered as part of our performance management process and additional CPD will be supported throughout the year where it becomes appropriate due developing situations with one or more students.

Where the need to do so becomes evident, we will host twilight training sessions for all staff to promote learning or understanding about specific issues related to mental health.

Policy Owner	Creation Date	Approved by	Review Frequency	Page 15 of 16
J Adams-White	29.09.2023		Annual	

Suggestions for individual, group or whole school CPD should be discussed with (***Mrs McCourt-kmccourt@stjulies.org.uk***) who can also highlight sources of relevant training and support for individuals as needed.

**Review of this Policy**

The policy will be reviewed by Governors on an annual basis but may be changed sooner considering any legislative changes.
