

# PLACED ACADEMY

Sign up for the PLACED Academy to take part in exciting FREE workshops about the built environment

Do you think you'd enjoy a career in property, architecture and creating places, but not sure where to start?

Are you interested in buildings and cities but not sure what skills and experience you need?

Are you looking for opportunities to meet new people, develop skills and gain experience?

Will you be in year 10, 11 or 12 in the academic year 2019-20?

If yes, then PLACED Academy is for you!

Based in Liverpool, this brand new programme aims to inspire students going into years 10, 11 and 12 next year about the built environment, from architecture to planning, interior design to regeneration.

Our programme of fun events and activities will help to develop your skills, make your CV stand out from the crowd, build your confidence and get you ready for your next steps.

You'll be working alongside professionals and students, giving you real insider knowledge. You don't need to have any particular skills, experience or knowledge – just an enthusiasm to get involved and take part.

The Academy will be delivered over 11 months outside of school hours, and will give you a flexible and bespoke programme of activities including design skills, site visits, CV and interview advice, workshops and hearing from experts in the sector to help get you where you want to be.

Free Taster Day - 18th May,  
Liverpool City Centre

Want to find out more about the programme before applying? Sign up to our Taster Day and come along to try out some practical, hands-on activities, meet the team and find out more about the programme!
