

Possible work experience placements

- Below are some contacts whom I have carried out work experience placements with. I am not sure if they still take students, but it is worth trying.
- I found all my placements through google searches and word of mouth, so this is also worth looking into.
 - Top tip: Go onto <https://findavet.rcvs.org.uk/home/> this allows you to search for veterinary practices in your area. I didn't know this website existed before Uni, but it is very helpful
- Some of the placements listed below will require you to fund travel and accommodation.
