

Catch-Up Premium

Year 7 Numeracy and Literacy Catch-up premium spending: summary

SUMMARY INFORMATION			
Total number of pupils:	30	Amount of catch-up premium received per pupil:	£500
Catch-up allocation 2020-21:	£11, 083		

We intend to use this funding to provide:

- continued funding, staffing and monitoring of Lexia reading software
- materials for numeracy and literacy assessments
- ongoing staff training
- further development of Rainbow Maths
- paired reading support
- staffing and resources for literacy & numeracy targeted interventions

Priorities for allocation:

- Training for staff to deliver literacy and numeracy intervention
- Resources for numeracy and literacy intervention

The allocation for 2019/20 was £10, 500.

This was used to provide:

- Continued funding and use of Lexia reading software
- Staffing and resources for Mathematics
- Staffing and resources for English
- Resources during national lockdown

Outcomes 2019/20:

NB. Support has continued with current Year 8 students due to national school closures in March 2020. Additional staffing has been implemented in English and Maths to support the catch-up programme during 2020-21.

School data indicates success in the following areas:

- Closing of the reading age gap and increased levels of confidence
- Intensive reading practice with targeted pupils – at least 15 minutes reading 1 to 1.

- This has resulted in more confident reading, which has had a positive impact on progress in other subjects
- Increased confidence relating to the transition to secondary school and its demands
- Pupil Voice indicates the majority of pupils enjoy the lessons and feel more confident in maths and English lessons; transfer of literacy and numeracy skills was noted by both staff and pupils
